

360 Jinko Solar panels, Samil inverters

90kW Installation Sea Views Manor, Ocean Grove

Solar Sunwerx customised a 90kW System for the Sea Views Manor aged care facility in Ocean Grove.

Sea Views Manor show potential residents the solar power system on open days. The system is a great way to illustrate that they will be keeping the cost of living down for their residents well into the future.

Samil Power, the company that supplied the inverters, featured the system in a full-page advertisement that ran in the solar industry magazine *Eco Generation*.
